BEYOND THE BLACK

FACTS

Beyond The Black can look back on a history of incredible proportion. Their debut album "Songs Of Love And Death" hit the German album charts at #12 and was awarded the Metal Hammer Award for "best debut". The 2nd album "Lost In Forever" followed just twelve months later and peaked at #4 in the charts. The third studio album "Heart of the Hurricane" was released in August 2018. It followed this incredible success story and could also enter the top five of German charts.

Similar to the growth of the band's album success, the stages of their live performances grow bigger and more international. Coming from a live debut at Wacken, the band has toured with rock legends Scorpions, played international concerts and festivals in countries such as UK, Russia and Japan, and rocked the main stage at the biggest heavy metal festival in the world. In 2018 Beyond The Black joined the Within Temptation Tour through Europe and celebrated major successes with their concerts. To continue this, the band will go on their own huge European Tour in autumn 2019.

In May 2019, singer Jennifer Haben will participate in Germany's major music TV show "Sing meinen Song – Das Tauschkonzert".

Just in time for her media appearance, Beyond The Black will release a new edition of the current album: "Heart Of The Hurricane (Black Edition)" with brand new songs and the best songs of their first albums.
